

Kan't Kopy® Security Paper

Highest level of technology available

Federal Requirements for Tamper Resistant Prescription Paper

As of October 1, 2008, to be considered tamper-resistant, a prescription must contain all three of the following characteristics

-  One or more features designed to prevent unauthorized copying
-  One or more features designed to prevent erasure or modification
-  One or more features designed to prevent the use of counterfeit prescription forms

Features

-  **Pantograph (Hidden Message)**
When unauthorized persons try to copy or scan your original, a "Void" or "Rx Invalid" hidden message appears
-  **Color Match**
The original colors of Kan't Kopy® papers cannot be reproduced with any type of copying process
-  **Kan't Kopy® Artificial Watermark**
An artificial watermark is manufactured onto the paper
-  **Anti-Coin Rub**
Watermark on back turns black when rubbed with a coin
-  **Warning Box**
Warning box appears on back (Rx Invalid only)
-  **Erasure Protection**
Guards Against Erasing/Modifying and Scanning
-  **Thermochromic Ink (Heat Sensitive)**
Red ink with "Rx image" reacts when exposed to heat, making it nontransferable on copied documents (Rx Paper Only)
-  **UV Fiber Glow**
Paper has embedded security fibers only visible under ultraviolet light
-  **UV Paper Dull**
Ultraviolet light will not brighten the paper
-  **Tamper Alert**
Spots will appear if chemicals are used in an attempt to alter a Kan't Kopy® original
-  **Acid Free**
-  **Toner Grip**
When laser print is applied, alterations are easily identified as paper fibers are destroyed and toner adheres to the paper

Not guaranteed on black and white copiers.

The following Kan't Kopy® features comply with the associated tamper-resistant law:

-  **"Rx Invalid," "Void," or "Unauthorized Copy" Pantograph (Hidden Message) - K1 & K2**
When unauthorized persons try to copy or scan your original, a hidden message, built into the paper, appears on the copy, making the copy useless.
-  **Color Match - K1 & K2**
The original colors of Kan't Kopy® papers cannot be reproduced with any type of copying process.
-  **Micro-Printing - K1 & K2**
The size of text is difficult to reproduce accurately during counterfeit attempts and tends to appear as a dotted line. *This security feature is added by printing.*
-  **Anti-Coin Rub - K1 & K2**
Activated security feature when coin is rubbed on back of sheet to see security message and validate prescription.
-  **Kan't Kopy® Watermark - K1 & K2**
An artificial watermark is manufactured onto the paper. Watermark now also available on carbonless papers. **NEW!**
-  **Erasure Protection - K1 & K2**
Guards against erasing/modifying and scanning.
-  **Tamper Alert - K2 Only**
Spots will appear if chemicals are used in an attempt to alter a Kan't Kopy® original.
-  **Toner Grip - K2 Only**
When laser print is applied, alterations are easily identified as paper fibers are destroyed and toner adheres to the paper.
-  **Security Background and Color Match - K1 & K2**
Distinct background provides erasure, modification and scanning protection.
-  **Security Warning Box - K1 & K2** **NEW!**
Visible security warning box acts as a deterrent to those considering making unauthorized prescription copies. New for all Rx Invalid.
-  **Thermochromic Ink (Heat Sensitive) - K1 & K2**
Red ink with "Rx" image reacts when exposed to heat, making it nontransferable on copied documents (Rx Papers only).
-  **UV Fiber Glow - K2 Only**
Paper has embedded security fibers only visible under ultraviolet light.
-  **UV Paper Dull - K2 Only**
Ultraviolet light will not brighten the paper.
-  **Unique Production Batch Numbers - K1 & K2**
A unique product identification number provides the manufacturer's information in addition to positive document identification information. This security feature is added by printing.
